

Q4 2025 Performance Report Bibin

This report summarizes the **key performance indicators** across all business units for the *fourth quarter* of fiscal year 2025. Overall revenue grew by **23% year-over-year**, driven primarily by expansion in the Asia Pacific region and strong adoption of our *enterprise product tier*.

Revenue by Region

Region	Q3 Revenue	Q4 Revenue	Growth	Notes
North America (United States and Canada)	\$12.4M	\$14.1M	+13.7%	Strong enterprise adoption driven by new product launches
Europe & United Kingdom	\$8.7M	\$10.2M	+17.2%	GDPR compliance improvements boosted customer confidence significantly
Asia Pacific (Japan and Southeast Asia)	\$5.1M	\$7.8M	+52.9%	Fastest growing region with major wins in financial services sector
Latin America	\$2.3M	\$2.9M	+26.1%	New partnerships with local distributors in Brazil and Mexico
Middle East & Africa	\$1.1M	\$1.5M	+36.4%	Early stage but promising pipeline in UAE and South Africa

Key Highlights

Enterprise tier adoption increased by 45% quarter-over-quarter, with 127 new enterprise accounts onboarded. Customer retention rate remained strong at 94.2%, up from 91.8% in Q3. The average deal size grew from \$48K to \$62K, reflecting successful upsell initiatives.

Product development velocity improved with 3 major feature releases shipped on schedule. Infrastructure costs were reduced by 18% through optimization efforts, improving gross margins from 71% to 74%.

Total Revenue	Growth	Customers	NPS
\$36.5M	+23% YoY	2847	72

Outlook for Q1 2026

Based on current pipeline analysis and contracted revenue, we project Q1 2026 revenue between \$38M and \$41M.

Key Initiatives

- Launch of AI-powered analytics module with predictive insights
- Expansion into Southeast Asian market starting with Singapore and Indonesia
- Rollout of partner certification program with 50 target partners
- Migration of legacy customers to the new enterprise tier

This quarter represents a turning point for the company. We are transitioning from regional growth to a truly global presence, with infrastructure and partnerships to support scale.

— CEO, Annual Planning Meeting

Risk Factors

- 1.Potential regulatory changes in the EU data privacy landscape may require compliance updates
- 2.Currency headwinds in emerging markets could impact reported revenue by 2-3%
- 3.Competitor product launch expected in Q2 may affect win rates in mid-market segment
- 4.Key engineering hires still needed for the AI module delivery timeline
